by
SuccessMaker Enterprises

Individualized on-line tutoring
for students K-8.

**Summit
Academy**
11508 Main Street
Louisville, KY 40243

Success@Home!

The **SuccessMaker** Enterprises tutoring program in use during the school day at Summit Academy is now available for use by any student, from home!

With **Success@Home!** from Summit Academy, students can access their personalized tutoring program from anywhere with an internet connection!

SuccessMaker is a powerful diagnostic tool that determines the appropriate instructional level for each student, then designs a corresponding tutoring module for your child.

This standards-based courseware is in use in more than 16,000 schools nationwide, including several parochial schools in Jefferson County, and system-wide in Bullitt County. After four decades of research and development, SuccessMaker has evolved into an instructional program that, like a personal tutor, can discern and respond to the individual needs of each student in grades K-8.

The one-on-one instructional format is computer based and delivered in an environment that engages students and keeps them on-task for efficient learning. SuccessMaker works for all kinds of students - including gifted, at risk, learning disability or special needs.
